PROFILE

Architectural drafter with 9+ years of experience and a Master of Architecture, producing construction documents for residential, commercial, retail, hospitality, and fuel-station projects. Canadian experience drafting new builds, renovations, additions, and layout redesigns for detached homes in imperial units. Produces full drawing sets in Revit, AutoCAD, and ArchiCAD, and works closely with engineers, designers, and contractors to turn sketches and site information into coordinated, review-ready packages.

TECHNICAL SKILLS

Software: Revit, AutoCAD, ArchiCAD, SketchUp, Adobe Photoshop, Microsoft Office

Drafting: Construction documents, floor plans, elevations, sections, details, as-built and existing-condition drawings, 3D modelling and visualization

Other: Imperial and metric units, site measurement, space planning, specifications, drawing coordination

PROFESSIONAL EXPERIENCE

Architectural Drafter (Contract) **2025 – 2026**

J.S. Held | Calgary, AB (Remote)

- Prepared AutoCAD drawing packages for detached single-family homes in Canada, covering new builds, renovations, and additions, drafted in imperial units
- Produced floor plans, elevations, sections, and existing-condition drawings from sketches, site photos, and field measurements
- Revised layouts and dimensions in response to engineer and contractor review comments to issue construction- and review-ready sets
- Coordinated with engineers and contractors to keep drawing sets complete and consistent for review

Architectural Drafter (Contract) **2026**

Tano Studio | Calgary, AB

- Redesigned the layout of a two-storey detached home, relocating walls, rooms, and the stair to improve circulation and room proportions
- Produced dimensioned main and upper floor plans in Revit and ArchiCAD in imperial units, with grids and section and elevation markers

Architectural Drafter **2019 – 2024**

Partner Construction Architectural Agency (architecture firm) | Ukraine

- Prepared design and construction documents for shopping centres, bank branches, multi-storey residential buildings, and private homes
- Delivered drawings for four new locations of restaurant-chain client Very Well Cafe within one year, including kitchen equipment, ventilation, and utility layouts
- Produced floor plans, facades, building sections, material quantities, and 3D visualizations in ArchiCAD and SketchUp
- Conducted site visits to verify conditions and resolve design issues during construction
- Worked on projects for clients including McDonald's, Siemens, Danone, and Procter & Gamble

Drafter **2016 – 2019**

Ligir ETBS (oil and gas service company) | Ukraine

- Prepared AutoCAD general arrangement drawings and specifications for LPG and multi-fuel refuelling facilities, covering tanks, pumps, piping, dispensers, canopies, and fencing
- Coordinated equipment and site layouts with engineering teams and produced as-built documentation for project close-out

EDUCATION

Master of Architecture — Kyiv National University of Construction and Architecture, Ukraine (WES-evaluated)

Languages: English, Ukrainian | Legally eligible to work in Canada
